FULL REPORT OF DIFFICULTY.

FULL REPORT OF DIFFICULTY.

About 6:30 o'clock Monday evening Chief of Police Kizer received a 'phone message that a negro had been shot at No. 128 James street. Captain Prince detailed detectives Heppel and West to work up the case, and the officers went at once to the scene of the shooting. The dive in which the tragedy occurred is run by a negro named Ferrebee, and his daughter. Lanna.

Arriving at the house the detectives made inquiry as to the shooting, and learned that the wounded man had gone to his home, No. 138 James street. Securing the pistol with which the shooting was done the officers went to Small's house. They found the wounded man in bed. The patrol wagon was sent for and he was removed to the station house and a physician sent for. The wound was pronounced serious by the doctor, and the negro was sent to St. Vincent's Hospital, where a thorough investigation was made, and the physicians entertained little hope of recovery.

Everything possible was done for the negro, who lingered until yesterday morning, when he died.

POST MORTEM EXAMINATION. POST MORTEM ENAMINATION.
When Charles Small died Coroner
Charters was notified, and yesterday
afternoon he held a post mortem. The
examination revealed three wounds—
one in the hand, one in the arm and
one in the upper part of the abdomen.
It was the last mentioned wound that
caused the negro's death. The ball
after entering the stomach took an upward course, and lodged in the liver.
The inquest will be held to-day, when
the post mortem statement of the negro
will be adduced as evidence. The two
negroes, Ferebee and his daughter, will
also appear as witnesses, they having
been present at the time of the shooting.

THE COMMONWEALTH'S SIDE.

Charles Small, before he died, gave an account of the shooting. He says he went into the room in Ferchee's house where Solemon was at about 4:30 o'clock, and said to him: "I understand you have been tafking about met Now, I am a peaceable man, and don't want to have any difficulty; but if you say anything else about me I will hurt you."

you."

Small says that after he had spoken
to Solomon the latter got up, and drawlng a revolver, without a word of warning, began shooting at him. Four shots
were fired, three of which took effect.
Solomon then made his escape, and
Small went to his home and went to
hed.

Murderer Horatio Solomon in jail.
The too frequent sequel to carrying loaded pistols has again happened, and another killing is added to the record of crime. A poor soul has been launched into eternity, while another has been locked up in the city jail; and a woman seems to have been the cause of it all,
It will be remembered that in the local columns of the Virginian-Pilot last Tuesday morning there was a report of a row at 128 James street, whereby one Charles Small was shot by another negro named "Happy Charlie," a colored woman by the name of Lanna Ferebebeing, it was said, the cause of the dis-

### Milton's Unrivalled Tribute to Wom-

When Milton wrote those words which stand unrivalled as a tribute to woman: "Grace was in all her steps, heaven in her eyes; in all her gestures, dignity and love," he did not have in mind a weak, nervous, sickly, nerve-exhausted and pain-racked woman suffering from female complaints, but one in the glow of perfect health and strength. To be a perfect wife or mother every woman should first of all see that she is in good health. This is certainly not difficult at the present day, when such an eminent specialist in the treatment of female diseases as Dr. Greene, of 35 West 14th street, New York City, who undoubtedly has the largest practice and the greatest suc-Dr. Greene, of 35 West 14th street, New York City, who undoubtedly has the largest practice and the greatest success in curing all forms of female weakness and diseases, can be consulted free and his advice and counsel obtained by any woman absolutely without charge, either by calling or writing about her case. From his enormous experience he knows just how to cure your complaints, just how to advise you, and he uses only harmless vegetable medicines, which are wonderful in soothing, healing, strengthening and invigorating the female system. One of his grand discoveries, Dr. Greene's Nervura blood and nerve remedy, is known and used all over the world, and he has discovered many other medicines no less marvelous in their curative effects. No woman afflicted with female troubes or who is out of health in any way, should hesitate to write about her case to Dr. Greene, and she will get, free of charge, information and advice which is almost sure to lead to her complete restoration to health.

### Beautiful New Light.

There is a new light in town; in fact, two of them, and the scintilating beam from the new illuminunes attracted a great deal of attention last night. At No. 31 Bank street two of these lights power burning and the illuminating power was beautiful indeed. While the light is particularly strong, it is mellow also and is reflected from the burner with a remarkable degree of uniformity.

The plant is operated with two tanks, one being filled with gasoline, while the other contains the pressure, while is air. The gasoline is conducted to the burner through a small tube and vaporized at the generator. The expense of operating a 1,924 candle power are light is only one-half cent per hour, or about 90 cents a month for a light burning from 6 to 12 o'clock every night.

THE SLAYER'S STATEMENT.
Horatio Solomon, the slayer of Small, was seen in the jail and gave an entirely different version of the tragedy. He says he was in the Ferebee woman's house talking to her when Small came in. Small told him that he understood that he had been talking about him. Solomon denied the allegation, when Small told him if he said about him. Solomon denied the allegation, when Small told him if he said anything else about him he would kill him.
